Royale Chulan Damansara

FEE **USD 1,500 (RM 6,000) nett per pax**

OVERVIEW

The Certified Sustainability Professional programme is a comprehensive five-day development journey designed to equip participants with the competencies, frameworks, and strategic perspectives required to embed sustainability into organisational decision-making and long-term value creation.

The learning pathway begins with essential sustainability foundations before progressing into advanced themes such as the circular economy, sustainable supply chains, climate-related risks, IFRS-aligned disclosure expectations, and business and human rights.

A dedicated coaching day supports participants in refining their Sustainability Action Plan, the programme's assessment component. This ensures every participant leaves with a workable, context-specific plan tailored to their organisation or business environment.

By the end of the programme, participants will possess a well-rounded understanding of sustainability principles, regulatory expectations, stakeholder priorities, and practical implementation strategies, supported by tools they can immediately apply within their organisations.

LEARNING OUTCOMES

1. Understand core sustainability principles and how they support business strategy and value.
2. Assess their organisation's sustainability performance and key stakeholder expectations.
3. Apply concepts such as circular economy, sustainable supply chain, climate risk and human rights.
4. Design a practical sustainability plan that links purpose, strategy, operations and reporting.
5. Present and defend a sustainability action plan with confidence using feedback and coaching.

COURSE FRAMEWORK

DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
FOUNDATIONAL CONCEPTS	DEEP DIVES INTO SUSTAINABILITY PRACTICE	PLANNING FOR STRATEGIC SUSTAINABILITY INTEGRATION	COMMUNICATING, GOVERNING & EMBEDDING SUSTAINABILITY	COACHING & ACTION PLAN REVIEW

DAY 1	Understand the essentials of sustainability and ESG, then learn how to prioritise stakeholders and material issues to guide practical action.
DAY 2	Go beyond fundamentals — learn how to manage real ESG risks through circularity, responsible supply chains, climate disclosures (IFRS S1/S2), and human rights due diligence.
DAY 3	Turn sustainability into action by aligning strategy, objectives, business models, and daily operations — supported by trusted standards and authentic communication.
DAY 4	Practise real-world ESG leadership through a guided simulation — solve problems, manage stakeholders, make trade-offs, and communicate decisions with confidence.
DAY 5	Leave with a practical, review-ready sustainability action plan — sharpened through coaching, feedback, and clear quality benchmarks.

Fareed was trained as a lawyer, holds an MBA and several professional certification. He is an avid environmental junkie with MBA in Finance in Investment and holds a Certificate in Sustainable Development Goals award from University of Copenhagen and several other certifications in Sustainability and ESG. Fareed is also a panel of trainers and coaches for SME Bank focusing on Sustainability and ESG for SMEs applying for financing. He is a HRDCorp TTT certified trainer & trained coach with International Coach Federation (ICF) and a certified trainer with HRDCorp.

Dr Sham Razak
Former Director of the Academy
UNGCMB

Dr. Sham Razak, the former Director of the Academy at UN Global Compact Malaysia and Brunei, brings over 15 years of consulting experience to Malaysian business empowerment. His unique approach, combining practical application with scholarly insight, has transformed over 1,000 professionals and business owners into informed sustainability advocates. Dr. Sham goes beyond just understanding ESG practices; he simplifies complexities, unlocking tangible value for individuals and organizations. His hands-on methodology, rooted in real-world scenarios, ensures that sustainability principles become actionable strategies. Dr. Sham's work demonstrates the power of integrating practical know-how with academic rigor to create a sustainable, value-driven future for businesses and professionals.
